

Bordeaux Caffaro®

FUNGICIDES

THE POWER OF TRADITION

WP Formulation

Copper Sulfate 200 g/kg

> A product with more than a century of experience!

Since ages, generations of growers appreciated the quality and reliability of this product.

After so many years, Isagro reached a high manufacturing excellence.

> Brochantite

Brochantite is the most stable form of copper, the less blocked by the organic acid of the leaves and the most soluble. **Bordeaux Caffaro** holds the highest quantity of Brochantite in its category.

Bordeaux Caffaro®

Superior quality

Quality of Copper Tech

Properties of a Copper based fungicide depend on the size of Tech crystals. Isagro exclusive Copper Tech synthesis process yields the majority of particles which size is more suitable to hit the target.

Dose reduction

Such a small size of Tech particles makes it possible to reduce doses of application thanks to:

More copper ions released

Wider active surface

The product better sticking on the leaf

The product better resisting to wash off

Optimal dissolution
