

Fantic® Star

FUNGICIDES

THE OPTIMAL
COMBINATION

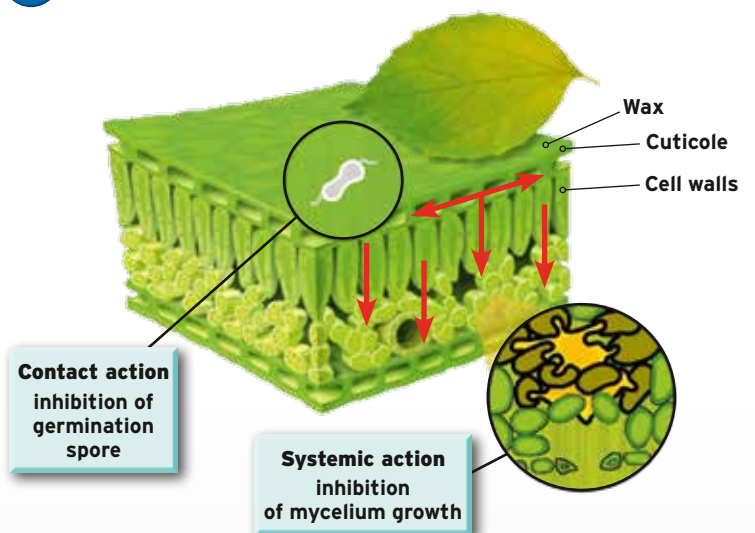

WG Formulation

Kiralaxyl 50 g/kg
+
Chlorothalonil 500 g/kg

➤ Outstanding preventative and curative product

➤ Mode of action

➤ Systemicity of Kiralaxyl makes the difference!

- **Lipid solubility:** stocked in the waxy cuticle, it is not washed off by rain and penetrates into leaves.
- **Water solubility:** acropetal translocation through the sap to the new shoots without accumulation at the leaf tips.

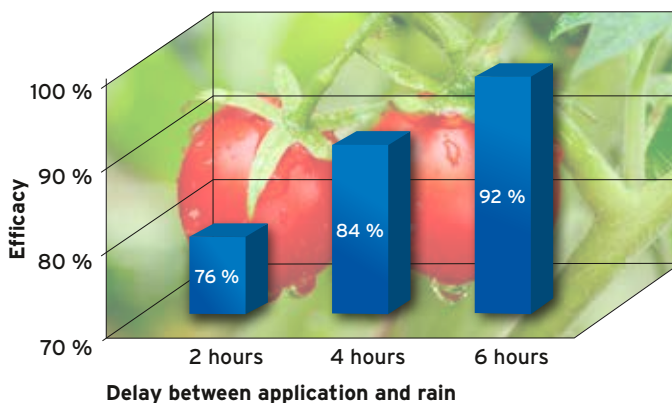

Kiralaxyl®

The perfect synergy

➤ Rainfastness

Kiralaxyl's resistance to wash out proven by measuring its presence into leaves exposed to artificial rain after application.

➤ Formulation key advantages

Safe to handle

Dust-free formulation

Extrusion technology

Perfect dispersion

➤ Crops

Tomato, Potato, Mango, Cucumber, Pineapple, *Chrysanthemum* spp., Gerbera and Roses.

➤ Broad Spectrum

Early Blight, Antracnose, Downy Mildew and Late Blight.

➤ Favourable profile and respect of the environment

➤ Import tolerance
