

Fantic[®] Plus

FUNGICIDES

THE BEST SOLUTION
AGAINST BLACK POD

WP Formulation

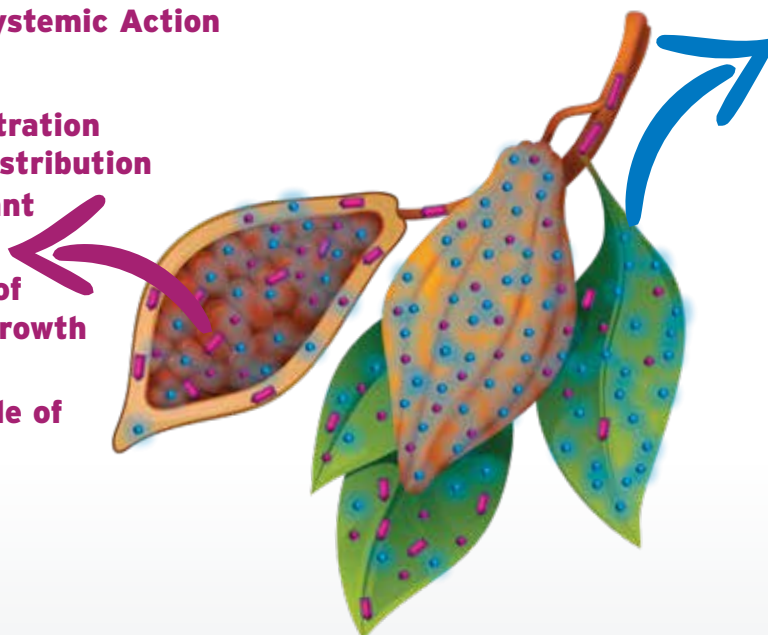

**Kiralaxyl 90 g/kg
+
Cuprous Oxide 600 g/kg**

- High efficacy due to synergic action of two active ingredients
- Reduction of resistance phenomena
- Excellent protection for cocoa beans

KIRALAXYL Systemic Action

- ✓ Quick penetration and even distribution into the plant
- ✓ Inhibition of mycelium growth
- ✓ Double mode of action

COPPER Contact Action

- ✓ Excellent preventative action
- ✓ Multi-site action
- ✓ Optimal foliar coverage

Fantic Plus

The best solution for cocoa beans

Without **Fantic Plus**

With **Fantic Plus**

Application: Dilute 50 g sachet in a knapsack (15 l).

Crop Hygiene: It is recommended to remove pods as soon as they show the first symptoms.

FANTIC PLUS guarantees complete protection of all fruits including both cherelles and pods.

Preventive action of FANTIC PLUS guarantees crops are protected even during the rainy season.

Respecting the instructions on the label, FANTIC PLUS can be applied without any phytotoxicity risk.

➤ **Spray interval**

During the rainy season apply every 21 days.

➤ **Rainfastness**

Many studies show the resistance of **Fantic Plus** to wash out by measuring its presence in leaves exposed to artificial rain.
