

# VENTUS

FUNGICIDES

THE SOLUTION  
FOR YOUR CROP

SE Formulation

**Tetraconazole 62.5 g/l**  
+  
**Chlorothalonil 250 g/l**

➤ **Two proven molecules with fungicide action**

- Long persistence
- Multi-site action
- Even distribution into plant tissues

➤ **Formulation advantages**

- Emulsified particles lead to better coverage of the sprayed surface, thus better canopy protection.
- Outstanding rainfastness.

➤ **Enhanced Systemic Protection**

Unique fungicide combination

## Mode of action

- Sterol Biosynthesis Inhibitors.
- Interference with glutathione-dependent enzymes.

### High systemicity

Quickly absorbed into plant tissue

Prompt redistribution and an even coverage of the treated surface

## Reliable solution against many diseases

**Vegetables:** Powdery Mildew, Anthracnose, Alternaria, Cercospora, Downy Mildew, Gummy Stem Blight, Phoma Blight, Scab (Cladosporium), Septoria and Target Spot.

**Top Fruits:** Powdery Mildew, Anthracnose, Leaf Blight, Black Mold, Cercospora Leaf Spot, Early Blight, Grey Leaf Spot, Septoria Leaf Spot and Target Spot.

**Row Crop:** Anthracnose, Eye Spot, Rust, Gray Leaf Spot N&S Corn Leaf Blight.
