

Siapton[®] Nature

UNIQUE BOOSTER OF FLOWERING
AND FRUIT SET

A new technology
from nature

BIOSTIMULANTS

➤ Booster of flowering and fruit set

➤ It gives homogeneous fruits of regular shape

A food grade extract
for plant performance

It is an extract
from seeds of
Ceratonia siliqua

Ceratonia siliqua's
growth factors
are preserved by
enzymatic hydrolysis.
They favour intense
flowering and fruit set.

> Positioning

Foliar application: apply before flowering and until 7 days after petal fall, at 250 ml/100 l of water.

Period of application

> **Siapton Nature** is a unique and exclusive Biostimulant from Isagro, a pillar among the Isagro Biosolutions portfolio. It was developed at our Research & Development facilities in Novara and Galliera, Italy, where dedicated scientists and researchers invent new solutions for farmers.
