

Airone[®]

**BETTER PERFORMANCE
WITH LOWER DOSES**

WG Formulation

FUNGICIDES

**Copper hydroxide 140 g/kg
+
Copper oxychloride 140 g/kg**

➤ **Copper bioavailability**

Well balanced release of copper ions to hit the target.

HYDROXIDE: quick action

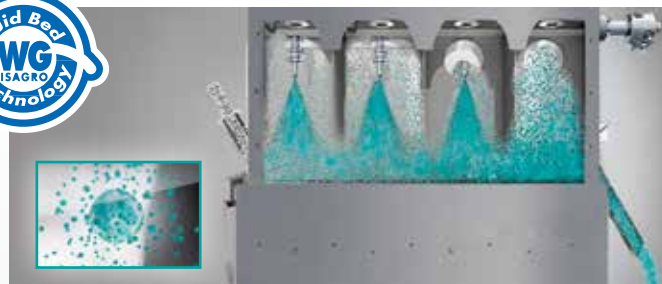

OXYCHLORIDE: long lasting activity

➤ **The only mixture of copper salts on the market**

Airone is a patented mixture invented by Isagro R&D.

➤ **Fluid Bed Wettable Dispersible Granules**

Airone is produced in a dedicated plant with "**FLUID BED**" technology for an unsurpassed dispersibility in water and almost dust-less granules.

Airone®

Unique micro particles

Easy to use

Immediate dispersion of granules and full compatibility with most of the crop protection products.

A loyal ally against many diseases

Crops: Grape, Tomato, Potato, Top fruits, Vegetables, Ornamentals, Tropical fruits.

Fungal diseases: Downy Mildew, Scab, Leaf Curl, Shot Hole, Early and Late Blight, Anthracnose, Blossom Wilt.

Bacterial diseases: Fire Blight, Bacterial Leaf Blight.

Airone enhances the excellent antibacterial activity of copper.

Multiple action

Inhibits fungi spores' germination

Blocks the pathogen respiration processes

Slows down protein biosynthesis

Reduces membrane permeability

The unique Isagro synthesis process means the copper microparticles are the perfect size to target the bacteria.

Selectivity

Airone does not have any known phytotoxic effect when applied following label recommendations and dose rates.

Rainfastness

The **Airone** formulation contains a much higher number of copper particles less than one micron in size than other formulations on the market. This enhances rainfastness.
