

# Airone®

BETTER PERFORMANCE  
WITH LOWER DOSES

WG Formulation

FUNGICIDES

COPPER  
HYDROXIDE 136 g/l  
+  
COPPER OXYCHLORIDE  
136 g/l

## > Copper bioavailability

Well balanced release of copper ions to hit the target.

**HYDROXIDE: quick action**

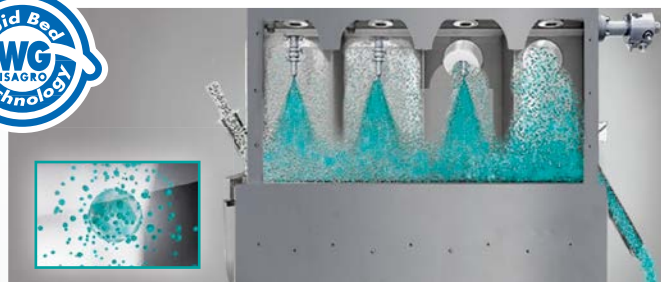

**OXYCHLORIDE: long lasting activity**

## > The only mixture of copper salts on the market

**Airone WG** is a patented mixture invented by Isagro R&D.

## > Fluid Bed Wettable Dispersible Granules

**Airone WG** is produced in a dedicated plant with "FLUID BED" technology for an unsurpassed dispersibility in water and almost dust-less granules.

# Airone®

Unique micro particles

## ➤ Easy to use

Immediate dispersion of granules and full compatibility with most of the crop protection products.

## ➤ A loyal ally against many diseases

**Crops:** Grape, Tomato, Potato, Top fruits, Vegetables, Ornamentals, Tropical fruits.

**Fungal diseases:** Downy Mildew, Scab, Leaf Curl, Shot Hole, Early and Late Blight, Anthracnose, Blossom Wilt.

**Bacterial diseases:** Fire Blight, Bacterial Leaf Blight.

**Airone WG enhances the excellent antibacterial activity of copper.**

## ➤ Multiple action

**Inhibits** fungi spores' germination

**Blocks** the pathogen respiration processes

**Slows down** protein biosynthesis

**Reduces** membrane permeability

The unique Isagro synthesis process means the copper microparticles are the perfect size to target the bacteria.

## ➤ Selectivity

**Airone WG** does not have any known phytotoxic effect when applied following label recommendations and dose rates.

## ➤ Rainfastness

The **Airone WG** formulation contains a much higher number of copper particles less than one micron in size than other formulations on the market. This enhances rainfastness.
