

Sidecar®

THE PERFECT MATCH

WG Formulation

FUNGICIDES

Kiralaxyl 50 g/kg
+
Copper Oxychloride 150 g/kg
+
Copper Hydroxide 150 g/kg

3-way:
powerful formulation of three active ingredients

Innovative specialty:
first mixture of Kiralaxyl + Copper

➤ **Sidecar®: the systemic attack of Kiralaxyl**

- Fast penetration and uniform distribution throughout the plant.
- Acropetal translocation through the sap to the new shoots without accumulation at the leaf tips.
- Intracellular diffusion for regular, uniform distribution in leaves and fruits.

➤ **Sidecar®: the solid defense tactic of Copper**

Fast action of Copper Hydroxide and long lasting activity of Copper Oxychloride.

- More adhesivity
- Fast Action
- Broad Spectrum efficacy against bacteria and fungi
- Constant Copper ions release
- Long persistence

The fairplay solution

Enhanced formulation technology for excellent mixability

Optimal mixture in outstanding granule.

- High dispersibility
- Uniform granulometry
- Suspension stability
- Dustless
